THINKING CHANGES

THE EXPERIENCE MACHINE

1. In the world depicted in this film, people can enter simulated realities of their choosing by plugging into an 'Experience Machine.' What is the 'Experience Machine?'
2. Discuss the potential benefits of using such a machine.
3. Discuss the potential drawbacks of using such a machine.
4. What is more important, reality or an individual's perception of reality?
5. Would you take the 'Experience Machine' back to Earth? Why or why not?
